EDUCATION

Colorado School of Mines, Golden, CO

December 2026

Bachelor of Science in Computer Science

GPA 3.53

- C-MAPP Scholar, Computing-Mines Affiliates Partnership Program (2025–2026)

EXPERIENCE

Software Development Intern

May 2025 – June 2025

Qualcomm

Boulder, CO

- Built a full-stack data analysis tool from the ground up, providing Qualcomm teams internal visibility into the entire device repair pipeline.
- Developed core front-end features with React and TypeScript, establishing a scalable structure for future UI enhancements.
- Contributed 10K+ lines of code to an established codebase via Git.
- Contributed to the back-end with Python (FastAPI) and SQL queries, implementing initial endpoints and data integrations.
- Worked in an Agile team, collaborating with mentors and management to define requirements and deliver a usable first version for future teams to extend.

PROJECTS

Spam Email Detector | *Python, Docker, Scratch, Flask, SciKit, Heroku*

Sep. 2025 - Present

- Building and deploying a full-stack machine learning application using Python, Flask, and Docker, handling data preprocessing, model training and evaluation.
- Developing and optimizing classification models achieving 95% accuracy on test data, demonstrating strong skills in feature engineering and algorithm selection.
- Containerizing and deploying the app on Heroku, enabling reproducible execution and real-time predictions, showcasing cloud deployment and API development skills.

Clue Game | *Java, Git, Swing*

Jan. 2025 – May 2025

- Developed an interactive grid-based Clue game in Java Swing with animated player movement and real-time board rendering.
- Applied object-oriented design principles (inheritance, interfaces, encapsulation) to implement core game logic across a modular, multi-class architecture.
- Collaborated with a partner using Git/GitHub, coordinating code integration and resolving merge conflicts.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL/Postgresql, JavaScript, HTML/CSS, Bash

Frameworks: React, Node.js, Flask, JUnit, WordPress, Material-UI, FastAPI

Developer Tools: Git, AWS, Repl.it, Google Cloud Platform, VS Code, Visual Studio, PyCharm, XCode, Eclipse

Libraries: PyGame, pandas, NumPy, PyTorch

EMPLOYMENT & VOLUNTEERING

Ramp Agent, Team Lead

Nov. 2022 – Aug. 2024

Fedex Express

Denver, CO

- Led cargo loading operations for on-time flight departures, coordinating teams under strict safety and efficiency standards.
- Optimized workflows and communicated with cross-functional teams to improve turnaround times in high-pressure environments.

Volunteer, Homeless Meal Service

Feb. 2021 – Feb. 2021

Food Bank of The Rockies

Denver, CO

- Collaborated with team members in a fast-paced kitchen to prepare, package, and distribute meals for community service.
- Applied organizational and process-oriented skills to streamline food storage and distribution workflows.
